

ERAS

Enhanced Recovery After Surgery

Patient Pre-Operative Checklist

ERAS program helps to:

Promote overall healing from surgery

Decrease opioid pain medicine use and side effects by using regional anesthesia

Advance diet faster and speed up return of bowel function

Decrease length of hospitalization

 <p>SURGERY</p>	<p>You will receive a call 48 business hours before surgery with more instructions on eating and drinking, when to arrive, and where to go on the day of surgery.</p>	<input type="checkbox"/>
 <p>BOWEL ROUTINE</p>	<p>Give your child MiraLAX to help soften the stool the day before surgery. If your child is younger than 2 years old, give: ___ capful of MiraLAX mixed in ___ ounces of Pedialyte in the am. ___ capful of MiraLAX mixed in ___ ounces of Pedialyte in the pm. If your child is 2 years and older, give: ___ capfuls of MiraLAX mixed in ___ ounces of Pedialyte in the am. ___ capfuls of MiraLAX mixed in ___ ounces of Pedialyte in the pm. <i>*Already following an enema regimen? Your team will let you know if your child will continue this the night before surgery.</i></p>	<input type="checkbox"/> <input type="checkbox"/>
 <p>CLEAR CARB</p>	<p>Choose a clear, carbohydrate-rich drink like Gatorade or Pedialyte for your child to drink 2-3 hours before surgery.</p> <p>Try to have them drink about _____ oz. before surgery. They must finish drinking it no later than 2 hours before the surgery time.</p>	<input type="checkbox"/>
